

My name is Skeet Arasmith a second generation Oregonian. I live in the City of Millersburg, which is in CD4 and HD15.

I am writing in support of Oregon Senate and House plan B. I believe that this plan maintains continuity between Albany, Millersburg, Tangent and North Albany and accounts for the population growth within this district. Plans A and C divide the central valley communities which are all related to the rural Willamette Valley issues and culture.

I am also in support of Plan B for Oregon Congressional Districts. While connecting Linn County to the costal counties of Lincoln, Tillamook, Clatsop and western Lane may not appear to be the best set of relationship, they are all rural in nature and have more in common than the relationship between Linn, Marion and Clackamas. While Marion and Clackamas have some rural features, they are driven by the culture in their urban areas, which is significantly different than the culture in Linn County.

Thank You
