

I am writing in regards to redistricting of Oregon.

It is imperative that we halt redistricting plans until further input from an organized committee that is bipartisan and formed on behalf of the voices of all Oregonians. To continue without fair representation would be egregious and I would consider it to be an aggressive politically motivated action. It would be discriminatory at best and woefully neglectful at a time where we need to have a compassionate and considerate mentality towards are communities that would be directly impacted by redistricting.

Thank you,

Betty Fitzgerald
