

The Congressional district lines break up communities of color. Breaking up these communities DILUTES voting power of people who have been systematically disenfranchised in our community.

The Albina Soul District map solves this problem by evenly distributing BIPOC voting groups so there are 18-27% in each district. District 6 includes 5.41% Black voters which is almost the entire amount of Black voters in Multnomah county.

Please support the instantiation of the Albina Soul District proposal. Thank you
