

I'm writing this email to voice my support for a neutral non gerrymandering approach to the redistricting of Oregon. I am an active I.B.E.W. Local 659 member and a registered Democratic. With that being said I believe that the foundation for a truly fair and honest democratic society is to ensure that everyone will have their voice heard. Carving out districts based upon votes has always been a dishonest approach to our electoral process. I would encourage an unbiased approach based upon geography and not ideals.

Thank you,  
Christan L. Muller
