

Dear Local Leaders of Oregon:

We need to keep communities of interest together. Congressional Plans A and C do not do that. They disenfranchise rural communities by pairing them with cities like Portland and Eugene. Congressional Plan B keeps communities of interest together better, like Multnomah county where I reside, splitting counties only to equalize population. I believe Plan B will better ensure that *all* Oregonians have an equal voice, fair representation, in their local government. Isn't that what good government is all about?

Respectfully yours,
Debbie Nolan
