

Greetings

My name is Greg Clayton Tillman-White and I live in District 2 Douglas County Oregon, Roseburg. I believe our Rural Community of Roseburg is politically split. I am part of the Rural Roseburg Community. My property is on the South Umpqua River in District 2. The other side of the river is District 1. At the North end of Roseburg District 4 winds its way almost street by street. This is ABSURD and POLITICAL. And divisive to our Local Rural Community. It's time to make it fair and reasonable.

I want to express my support for the following maps based on several reasons.

- To provide more fair representation for rural residents.
- to do a more fair and efficient job of keeping other political boundaries and the rural communities of interest INTACT
- to balance the disproportionate of Portland residents tied to rural area and increasing their percentage.

I think the maps that best represent this balanced and fair approach for the citizens and rural communities are the following:

1. Congressional map B
2. Oregon Senate map B
3. House map B

I appreciate your consideration and time. I will also be posting this publicly.

Sincerely,

G. Clayton Tillman-White
