TO: Chair Taylor and Co-Chairs Salinas and Boshart Davis, Vice Chair Knopp, and Committee members.

My name is Terrell Anderson I live in Eugene, Congressional District 4

As a voting member of Dist. 4 I have been looking at the proposed re-districting lines and I find it to be very unfavorable to the Criteria written for drawing of districts lines.

Even though it does follow the guideline of being contiguous, it is very obvious that it does not follow some of the other guidelines. It divides communities of interest to a weighted political-party element. I understand you have to have equal population but there is a much fairer way of getting that done without making it heavy for one party or the other or unnecessarily dividing communities of interest . You are entrusted to follow the guidelines given to you and it does not seem to be happening in accordance with the guidelines you are to follow.

We live in a country where we elect people that we hope we can trust to be fair and honest when it comes to treating all of the citizens with equal respect and fairness. Please take time to ask yourselves, are you being honest with yourselves and the public you are serving?

Sincerely Yours
