

Senator Knopf, Representative Zika and Congressman Bentz -

I am emailing you to testify on the redistricting here in Oregon.

The Democrats cannot be allowed to gerrymander and gain one more seat. We all know they have the super majority which has allowed these absurd mandates and freedom grabbing going on in this state.

If any of you in the Republican Party have any say in how the districts are aligned, you must stop them from gaining that extra seat. You all have sworn an oath to uphold the constitution of Oregon and the United States Constitution and to represent the people of this state and country, including the Democrats. In recent years this has not been happening as the super majority Democrats have been furthering their own socialistic agendas.

I am a retired veteran of 24+ years and am extremely disappointed in all state and federal politicians. They are not representing the people and protecting our rights and freedoms and they are not sticking to their oath.

Please convey to the entire legislature of what I have said and tell them to stop playing partisan politics, have some integrity and do what's right for the people not what's right for their political careers and agendas.

If any of you would ever like to discuss any of the issues we are dealing with today, please feel free to email or call me.
