

Dear Members of the Redistricting Committee:

The University of Oregon is an important community with many shared interests that should be preserved in redistricting to ensure effective representation.

The proposed “Map A” divides the University into three different House Districts and three different Senate Districts – exactly what the redistricting law seeks to prevent. The University Community includes many student residents and the confusion of having three different Senators and 3 different Representatives for this cohesive community would be confusing and ineffective. It makes no sense.

I support “Map C”, which preserves the University as a community of interest and ensures its effective representation.

Sincerely,
Judy Newman
