

To Whom It Concerns:

This is my testimony in regards to Oregon's redistricting 2021. I am a life-long Oregonian who believes in and expects good government practices on local, state, and federal levels.

Listing the laws that apply to redistricting is unnecessary, yet I ask they be followed.
I strongly advocate for House Plan B. It is the best option to ensure fair representation.

Thanks for the opportunity to testify,

Caleb Samples
