

Hello,

I am writing to support plan B for re-districting our state. I have lived in various suburbs outside of the Portland area and Corvallis/Eugene my whole life. I am a third generation Oregonian. My husband is a fifth generation Oregonian. We love this beautiful state. However, given the very different needs of high density populations and more rural, lower density populations it feels imperative to not group them together to much and run the risk of not meeting the needs of either via over compromising in an effort to find middle ground. I would strongly plead you re-district via Plan B to better suit the needs of the diverse population represented in our great state.

Congressional District-Plan B

Senate District-Plan B

House District-Plan B

Thank you for your time.

Sincerely,

Chelsea Sprague
