

To Whom it May Concern:

I am writing my testimony regarding the redistricting proposal. I was born in Oregon City and have raised my children in Canby and now Aurora Oregon.

I am in favor of the following-  
Congressional District- Plan B  
Senate Districts- Plan B  
House Districts Plan B

I feel confident that my state representative does a good job understanding our needs locally and the change in Districts would mean that I have a representative that lives further away and does not have a grasp of the local concerns be it, education, social and economic equity and local business supports.

Smaller rural cities in Oregon have specific needs that cannot be understood and addressed by representatives that have do not live in the communities in which they serve. I want to continue to live in a district that represents my family and I best , Plan B satisfies this.

Thank you for your consideration,  
Dawn Depner  
Aurora Oregon
