

I am concerned with the redistricting for Congressional District #2. From viewing the suggested maps it looks like Wasco County will be split again but this time instead of 2 splits it will be 3 splits. This is totally unacceptable.

But what is even worse is being merged with the western side of the state. We want to be with like minded peoples and we are agricultural. We need to be included with eastern counties. I do not want to be included with Hood River in any district. We associate with Sherman and Gilliam Counties.

As native Oregonians we have lived in Wasco County 65+ years. Please change the division of Wasco County and include us with Eastern Oregon.

Thank you.

Sincerely,

Darrell and Darlien France
