

OREGON STATE SENATE

September 13, 2021

Plan Opposition

Senate Committee on Redistricting
900 Court Street NE
Salem, Oregon 97338

Senators:

None of the Senate Plans for redistricting meet the legal and judicial prerequisites required for the division of representation to be utilized for the next decade if the country survives.

Senate Plan A per legislative leadership is a partisan compromise between Senator Fred Girod (Republican) and Democrat leadership which intentionally out-districts political opponents while failing to meet legal and judicial requirements. It is termed the 'best of the worst' plans that prevents a partisan plan developed by the Secretary of State.

Senate Plan B per legislative leadership was developed by House Republicans despite a previously ill-advised agreement between Representative Drazan (Republican) and Speaker Kotek (Democrat). The gerrymandering in the central Willamette Valley is very obvious. It does treat rural Oregon better but fails to meet legal and judicial requirements.

Senate Plan C per legislative leadership was developed by House Democrats. It is urban soviet domination over rural areas. The plan fails to meet legal and judicial requirements.

All of the plans are partisan attempts to empower one major registered political party caucus over the other major registered political caucus: Democrat verses Republican. All of the plans disenfranchise the largest body of voters: independent non-aligned voters. In reality, the plans disenfranchise the average voter regardless of party registration. The plans are designed to keep the elite of the police state in power over the masses.

It is clear the entire process starting with the Biden Administration's intentional delay of census data is designed to destroy the rights of the average citizen. Including only closed virtual hearings. It is government serving government not the People.

Submitted,

Brian Boquist
State Senator SD-12 IPO
