

Local Oregon Leaders,

I am in favor of Oregon Congressional Redistricting Plan "B" because I feel that this plan will help keep communities of interest together as opposed to plans "A" and "C". I feel that plans "A" and "C" mix urban and rural communities to the disadvantage of the rural populace. Rural communities have different needs than urban or suburban communities and their voices will not be heard if they are coupled to sections of the larger population hubs. For this reason, I will restate that I feel that Redistricting Plan "B" creates the fairest sections to allow all communities the opportunity to make their voices heard.

Respectfully,

Philip Woodland
