

Dear Committee Members;

It is well understood that Eastern and Western Oregon have very distinct issues, economics and politics. The U.S. Constitution relies upon states to make decisions for the people in each state that represent the interests of all citizens of the state. Wasco, Jefferson, and Deschutes counties have many of the same issues in common with Eastern Oregon, and as such, need to be represented recognizing those common interests.

With this in mind, we strongly ask your committee to approve Redistricting map, Plan B. We feel it is very important that the state of Oregon recognize the unique qualities between Eastern & Western Oregon and in doing so, afford a reasonable level of representation for all.

Sincerely,
David & Sharon L. Munks
