

Dear Oregon Legislature,

I would like to write in favor of **MAP B** for all of the redistricting updates. It is important that there is bi-partisian input into these new boundaries, and that all Oregonians are fairly represented, especially rural Oregonians. It is important that Redistricting lines follow natural boundaries, and not cut through and divide school districts, towns, etc. Map B is the most fair of all the options, and follows these natural boundaries.
