

Hello,

Thank you for the opportunity to share my thoughts with you. My name is Kevin Tool. I am a young man who lives in Madras. I am concerned with the district I would be in under "plan A" for these maps. Honestly I would be concerned for the representative who would have to try and represent such a diverse group of cities. Having Portland, Sandy, Madras, Redmond, Bend all within the boundary would guarantee inequity and unhappiness for whichever party doesn't win the election and it would be significant.

Of the two maps I think "Plan B" is the more reasonable for someone on my district. So I am writing to advocate for the "Plan B" map!

Thank you!

Kevin Tool
