Oregon Redistricting Committee: One of the obstacles of being a rural part of Clackamas County is that we are often grouped into the Portland Metro. In Clackamas County we are often grouped into the Tri-County Portland Metro area when it's convenient, but now Map A would take part of Clackamas County to Portland Metro when it's convenient to benefit map A. I believe we need to Keep transportation consistencies together that are already formed. I know that Clackamas County transportation needs are completely different than the transportation needs of Multnomah, Marion, or Washington County. I support: Congressional District B Senate District B House Districts B

Thank You,

Olivia Behrendt
