Oregon Redistricting Committee:

I want to submit my testimony about the redistricting happening in Oregon. This will affect our state for decades so we must get it right. It is in the best interest of the community to choose map B and give the political parties both a fair advantage rather than favoring one political party. Map B gives Oregonians a voice as a whole and does not silence them by the gerrymandering process.

I support:

Congressional District B

Senate District B

House District B

Thank you,

Carolyn Green

Molalla, Oregon
