

Greetings Redistricting Committee,

As a citizen of Oregon, I believe it is of top priority to follow Oregon Law regarding redistricting and the value to keep communities of similar ideals and values together. I live in Philomath and drive to Portland for my job. Philomath is an agriculture community that believes in the value of life, the value of work, and the value of our God given rights. Portland is led by a supporter of Antifa who hates Portland (I see the homeless population and the issues that follow that lifestyle). Rudy Guillian said once that you can judge the value of a mayor by the way they deal with homeless and Ted Wheeler hates Portland based on his actions and leadership (or lack of).

Oregon was founded by free thinkers and believers of freedom. 40 years ago things began to change, against law and against the legal citizens of Oregon. I was a democrat for a majority of my adult life until Peter DeFazio and Kate Brown sold Oregon under the greed for power and the money from China!! I believe in upholding the laws and that elected people work for the people - it's called public service. The supermajority of Oregon is leading Oregon to ruin and unless the Oregon Constitution is upheld, we are not going to keep Oregon, Oregon. I believe that Oregon will keep similar values and communities voting to be heard and not silenced by larger metro areas (Portland, Eugene, Corvallis, etc.). Please do not turn Oregon into a civil war with counties leaving for Idaho and leaving Portland and Eugene the state of Oregon!! There is so much more to Oregon than socialism and defunding the police!! Please give communities the dignity to vote with their communities!!

Blessings,
Estella Bitney
