

Dear committee members,

Thank you for all the work you've been doing and thank you for allowing me to share my opinion.

I live in rural Columbia County and I believe that House, Senate and Congressional B maps are the best maps for representing myself and my area. These maps value our county's borders and allow us better and more realistic representation for our ideals and interests. I do not wish for more of Portland's influence in our area, especially as Portland has greatly increased in crime and loss of business. We want representatives that support the police and are ready to fight crime and support business small and large.

Please seriously consider Maps B, I truly think these are the most balanced and just maps for fair representation.

Thank you,  
Kathy Cooper
