

To Whom It May Concern:

It is my belief that Proposed Map B is the best option for Oregon, as it will best serve District 30 and other rural areas of Oregon. The current districts and proposed maps A & C silence the voices of rural Oregonians, which has a negative impact. Rural Oregon has much different needs than those of Oregon's large cities and these needs should be taken into consideration to better serve all Oregonians.

Please choose Proposed Map B in order to best represent all people of Oregon and allow rural Oregon to have a voice in the state.

Sincerely:
Tiffany Oster
