

I live in District 4, Brookings Oregon. I think the Democrats map for redistricting should be implemented. The map begins with the 2011 map which was passed with bipartisan support. It then takes into account the areas that have had the largest increase in the past 10 years. So it is the most rational map, taking into account the Oregon guidelines for redistricting.

In addition, it has always been protocol for the party in the majority of each chamber to have the majority on the committee that is in charge of the drawing the new maps. The House leader of the Democrats defiled this protocol. Since the Democrats are in the majority of both chambers and the governorship, it is their maps which should be implemented. Enough of this horrible bullying by the Republican party.

Sincerely,

Genevieve Mancus
