Oregon Redirecting Committee:

I believe we need to keep transportation consistencies together that are already formed. I know that Clackamas County transportation needs are completely different than the transportation needs of Multnomah, Marion, or Washington County. It does not benefit Clackamas County to be chopped into segments. I support Plan B in keeping the districts consistent.

I support:

Congressional District B

Senate District B

House Districts B

Thank you,

Emily and Justin Parker
