

Senate Chair Taylor, Vice-Chair Knopp, House Co-Chair Boshart Davis, Co-Chair Salinas and Committee.

My name is Denver Pugh and I am a 6th generation farmer in the Shedd area which is in the Congressional District 4 and House District 11.

I have looked at all the proposed maps for the redistricting and to be honest, I don't like any of them. If I had to choose the best one out of the bunch it would be the proposed map B. At least that doesn't lump me into an area in Eugene that predominately is opposed to my values and views. The other maps, frankly, just frustrate me. It helps prove that very few in Salem are even listening or caring for the working people out in the rural areas. We feel as if our voice has been silenced and that nothing we do or say matters anymore.

Well here is your once in every ten years chance to let us know that you actually do want to hear from us and actually care what we hard working people who help pay for all the things we have in the is great state of ours. Please let us have a voice again and choose the proposed map B.

Thank you,

Denver Pugh
