Canby, OR 97013

Oregon Redistricting Committee:

One of the obstacles of being a rural part of Clackamas County is that we are often grouped into the Portland Metro when it is convenient for those making the rules. In the City of Canby, Clackamas County, we are often grouped into the Tri-County Portland Metro area where the majority support a very different opinion than those held by Canby residents. Map "A" would take part of Clackamas County and connect it with the Portland Metro area where it benefits the beliefs and values of Portland residents.

I strongly believe we need to keep transportation organization that is already in place. This division is functioning well for the outlying areas. It is the Portland areas that are failing and need to be corrected within their own revenue systems. Stop pulling the limited resources of the outlying areas into the Portland Metro Area failures. I know that Clackamas County transportation needs are different than the transportation needs of Multnomah, Marion, and Washington County. As such, I support the Map "B" designation leaving the outlying areas to work on their needs and not be included with the failures of City of Portland or the never ending issues associated with Multnomah County.

I support:

Congressional District "**B**"

Senate District "**B**"

House Districts "**B**"

Thank You,
