

Good evening,

I am a registered voter who lives in Ashland, Oregon. Thank you for the opportunity to comment on Oregon's redistricting.

The single most important thing, beyond what is required by law, in redrawing district lines is no gerrymandering! Drawing district lines to create "sure thing" Republican and Democrat districts is not acceptable. Districts should follow natural neighborhood and geographic boundaries. Using the redistricting process to benefit one political party or another is just wrong.

Thank you,

David Brennan
