

Hello,

I currently live in House District 30 in the City of North Plains. I feel strongly that my legislative interests are best met by living in a House District that shares representation with Hillsboro and other parts of Washington County. I strongly oppose a redistricting plan that would put North Plains in district 31, or in any district where the primary population centers with which we share house representation are Scappoose and St Helens. Nothing against those fine communities along the Columbia, but we live and work and spend time every day in Washington County, and in Hillsboro. It's been a long time since I've even been to Scappoose.

Sincerely,

Matt Wallace
