

This is my verbal testimony that I called in earlier today but I wanted to clarify my statement so it will still be heard.

Hello my name is Staci Sprague and I live in senate district 20, house district 39 and congressional district 5.

I live in rural Clackamas county in the Canby school district.

I am a native Oregonian and I have lived in Clackamas County my whole life.

I am here to express that Map B keeps in mind my community and my family's needs.

I grocery shop and do all of our business locally in Canby. We are very involved in our community and love to support our small town. Our community shares many local value systems and that's what makes it special. My family and many of the community members are involved together thru the year we have a 4th of July Independence Day parade and celebration in the park, we volunteer and donate to the local communities center "The Canby Center" we support local Sports, fundraisers and attend church together.

We as a family shop and dine at locally owned businesses in our community Waywards sandwich, Gwen's Coffee Shop and Wild Hare Saloon for a good burger. We all support locally owned Cutsforth Market. We not only support them we do life together with these people. And that's what makes Canby special and unique to our family.

I do not want my voice or the community that I live with to have there values over ruled by changing the boundaries of map A

Adding a boundary change and incorporating areas into my current district does not make sense with my area. The neighboring community values are not the same. So changing the lines would take our conservative voice away from the community that I do life with.

This change would then move me to be represented by a different representative 45 miles away in Silvertown that I have never met and is not familiar with our local issues or concerns.

I feel this would not only dilute my voice, my family's voice but our entire community's voice.

You should not shift and change boundaries That would change the voice of our rural demographic by adding big city agendas to my area.

This boundary change only stands to benefit someone else's political objectives and agenda and silence ours.

So I urge you to please stand up for all voices in Oregon!
Not someone's agenda that does not fit with mine.

I support
Congressional District B
Senate District B
House Districts B

Thank you for your time in listening to my testimony.

Staci Sprague
