

Gerrymandering in the U.S., have always been attempts to partisanize the political process. This is EXACTLY what the Oregon Legislature is doing. Subverting the U.S. Constitution, by ripping the hearts out of Republican-leaning districts, and inserting Left-leaning 'voters,' is comparable to *prima-nocte*. "If you cannot drive them out, you will BREED them out."

The U.S. Constitution says that we should send representatives that REPRESENT THE MAJORITY OF THE DISTRICT. What you are trying to do, is change the 'ph' of the vessel, by pushing it just far enough LEFT, to eliminate Conservatives, altogether. This is despicable, and is TYRANNY.

Typical gerrymandering cases in the United States take the form of partisan 'hacking,' which is aimed at favoring one political party, or weakening another; In this particular case, Lincoln/Tillamook, Clatsop county gerrymandering is intended to take three 'Red-Tinted' counties, packing those counties with OVERPOPULATED DEM DISTRICT constituencies, from the EAST SIDE, and driving OUT one of the two Republican representatives, COMPLETELY. NOTHING TO SEE HERE!

You are certifiable CROOKS. Shame on you all.
