

A person wearing a dark hoodie is shown from the chest up, positioned in the center-right of the frame. The background is a dark green color with a pattern of falling white and light green characters, resembling a digital rain or data stream. The text is overlaid on this background.

Ransomware, Cybersecurity Education & Workforce Development

A Private Sector Perspective

WELCOME

Daniel M. Briley

Managing Director, Summit Security Group

Recovering Information Security Officer

Campground Afficianado

Ransomware

Malicious cyber activity threatens the public's safety and our national and economic security.

--The Federal Bureau of Investigation

01

Unprepared

Organizations are typically unprepared to defend against, and recover from an attack

02

Staffing

Current staff levels are not adequate to prepare

03

Devastation

Ransomware attacks are often devastating to the organizations impacted

04

Need >> Supply

More trained cyber professionals are needed – that the need far exceeds the supply of experts

05

Staffing

Skilled Cybersecurity professionals are not available in the Oregon job market

Questions | Discussion

A close-up photograph of a laptop keyboard. The keys are dark grey with white lettering. Visible keys include G, H, B, N, M, Alt Gr, Strg, Pos1, Bild up, Bild down, and Ende. A bright yellow sticky note is placed on the laptop's surface, featuring the handwritten text "Thank You!" in black ink.

Thank You!
