

OPERATION TABLE ROCK

ENFORCEMENT OUTCOMES

SEPTEMBER 23, 2021

CANNABIS IN OREGON

ADULT USE – MEDICAL – HEMP

Oregon Liquor and Cannabis Commission (OLCC):
Adult use marijuana businesses and worker permits

Oregon Health Authority (OHA): medical marijuana activities/businesses, testing standards and requirements

Oregon Department of Agriculture (ODA):
commercial kitchens, scale certification, certain food handling activities, pesticides and industrial hemp

HB 3000 IMPLEMENTATION

INTERAGENCY COORDINATION

- Developed and IAA and SOP's with ODA for enforcement work.
- Working with ODA, BOLI, OSHA, OWRD, Code enforcement and counties to gather information about complaints received for registered grows.
- Coordinating with agencies and law enforcement to determine types of grows.
- Developed IAA with law enforcement to assure protection on site visits.
- Purchased field testing units to allow regulatory specialists to determine if a plant is marijuana or hemp during inspections of registered ODA hemp grows.
- Adjusted staffing statewide to allow for more personnel in the Southern Oregon region from June – August 2021.

HB 3000

ENFORCEMENT OUTCOMES

- OLCC and ODA visited 316 registered hemp grow sites in Jackson and Josephine County.
- Samples were collected in the fields and tested to determine if the plant was marijuana or hemp.
- Emergency rules set the limit of THC that would qualify as marijuana at 5% THC, which is a much larger amount of THC than is allowed by federal law .3%THC.
