Health Equity

OHPB Adopted Definition:

Oregon will have established a health system that creates health equity when all people can reach their full health potential and well-being and are not disadvantaged by their race, ethnicity, language, disability, age, gender, gender identity, sexual orientation, social class, intersections among these communities or identities, or other socially determined circumstances.

Achieving health equity requires the ongoing collaboration of all regions and sectors of the state, including tribal governments to address:

- The equitable distribution or redistribution of resources and power; and
- Recognizing, reconciling and rectifying historical and contemporary injustices.

Policy & Procedure

Overarching Waiver Goal: *Advance Health Equity*

To achieve this, our policy framework breaks down the drivers of health inequities into four actionable sub-goals:

**Maximizing
coverage
through the
Oregon Health
Plan**

**Improving Health
Outcomes by
Streamlining Life
and Coverage
Transitions**

**Encouraging
smart, flexible
spending for
health equity**

**Focused
