

EVICTIONS

For one and one half years the(no eviction) mandate has been an invitation to fraud. We are the victims of one. Neighbor Impact has paid some, but that just increases the burden on the taxpayers. Many rental owners are selling, resulting in fewer rentals available. One size fits all, is always a bad idea. Instead of stopping evictions, a renter initiated request form should have been put in place. That would separated the needy from the users.

Respectfully yours,

Nils Kristiansen
