

GLOBAL DIVERSITY & INCLUSION

At the intersection of the presidential priorities of racial justice, equitable student success, and deepening community engagement lies a model of a university that represents what the future demands. The Division of Global Diversity & Inclusion is the institutional body partnering across campus to ensure the thriving of minoritized communities and the embedding of equity and justice in all campus operations.

ACTING ON EQUITY AND RACIAL JUSTICE

We are fighting racism and advancing social justice across our campus by applying an antiracist lens to everything we do, measuring our progress, and holding each other to account. We are committed to creating a transformative, equitable, and just community. We are taking real steps to make it happen, measuring our progress, and holding one another accountable along the way.
