# Bridge Program Task Force: Updated roadmap and timeline

Laurel Swerdlow, Senior Policy Analyst, Office of Health Policy

# Where we've been

# What we've learned so far

## How much federal funding would Oregon receive to implement a Basic Health Plan?

- Feasibility analysis suggests federal BHP funding would range from \$500-\$600 per member / per month, depending on whether ARPA subsidies are renewed

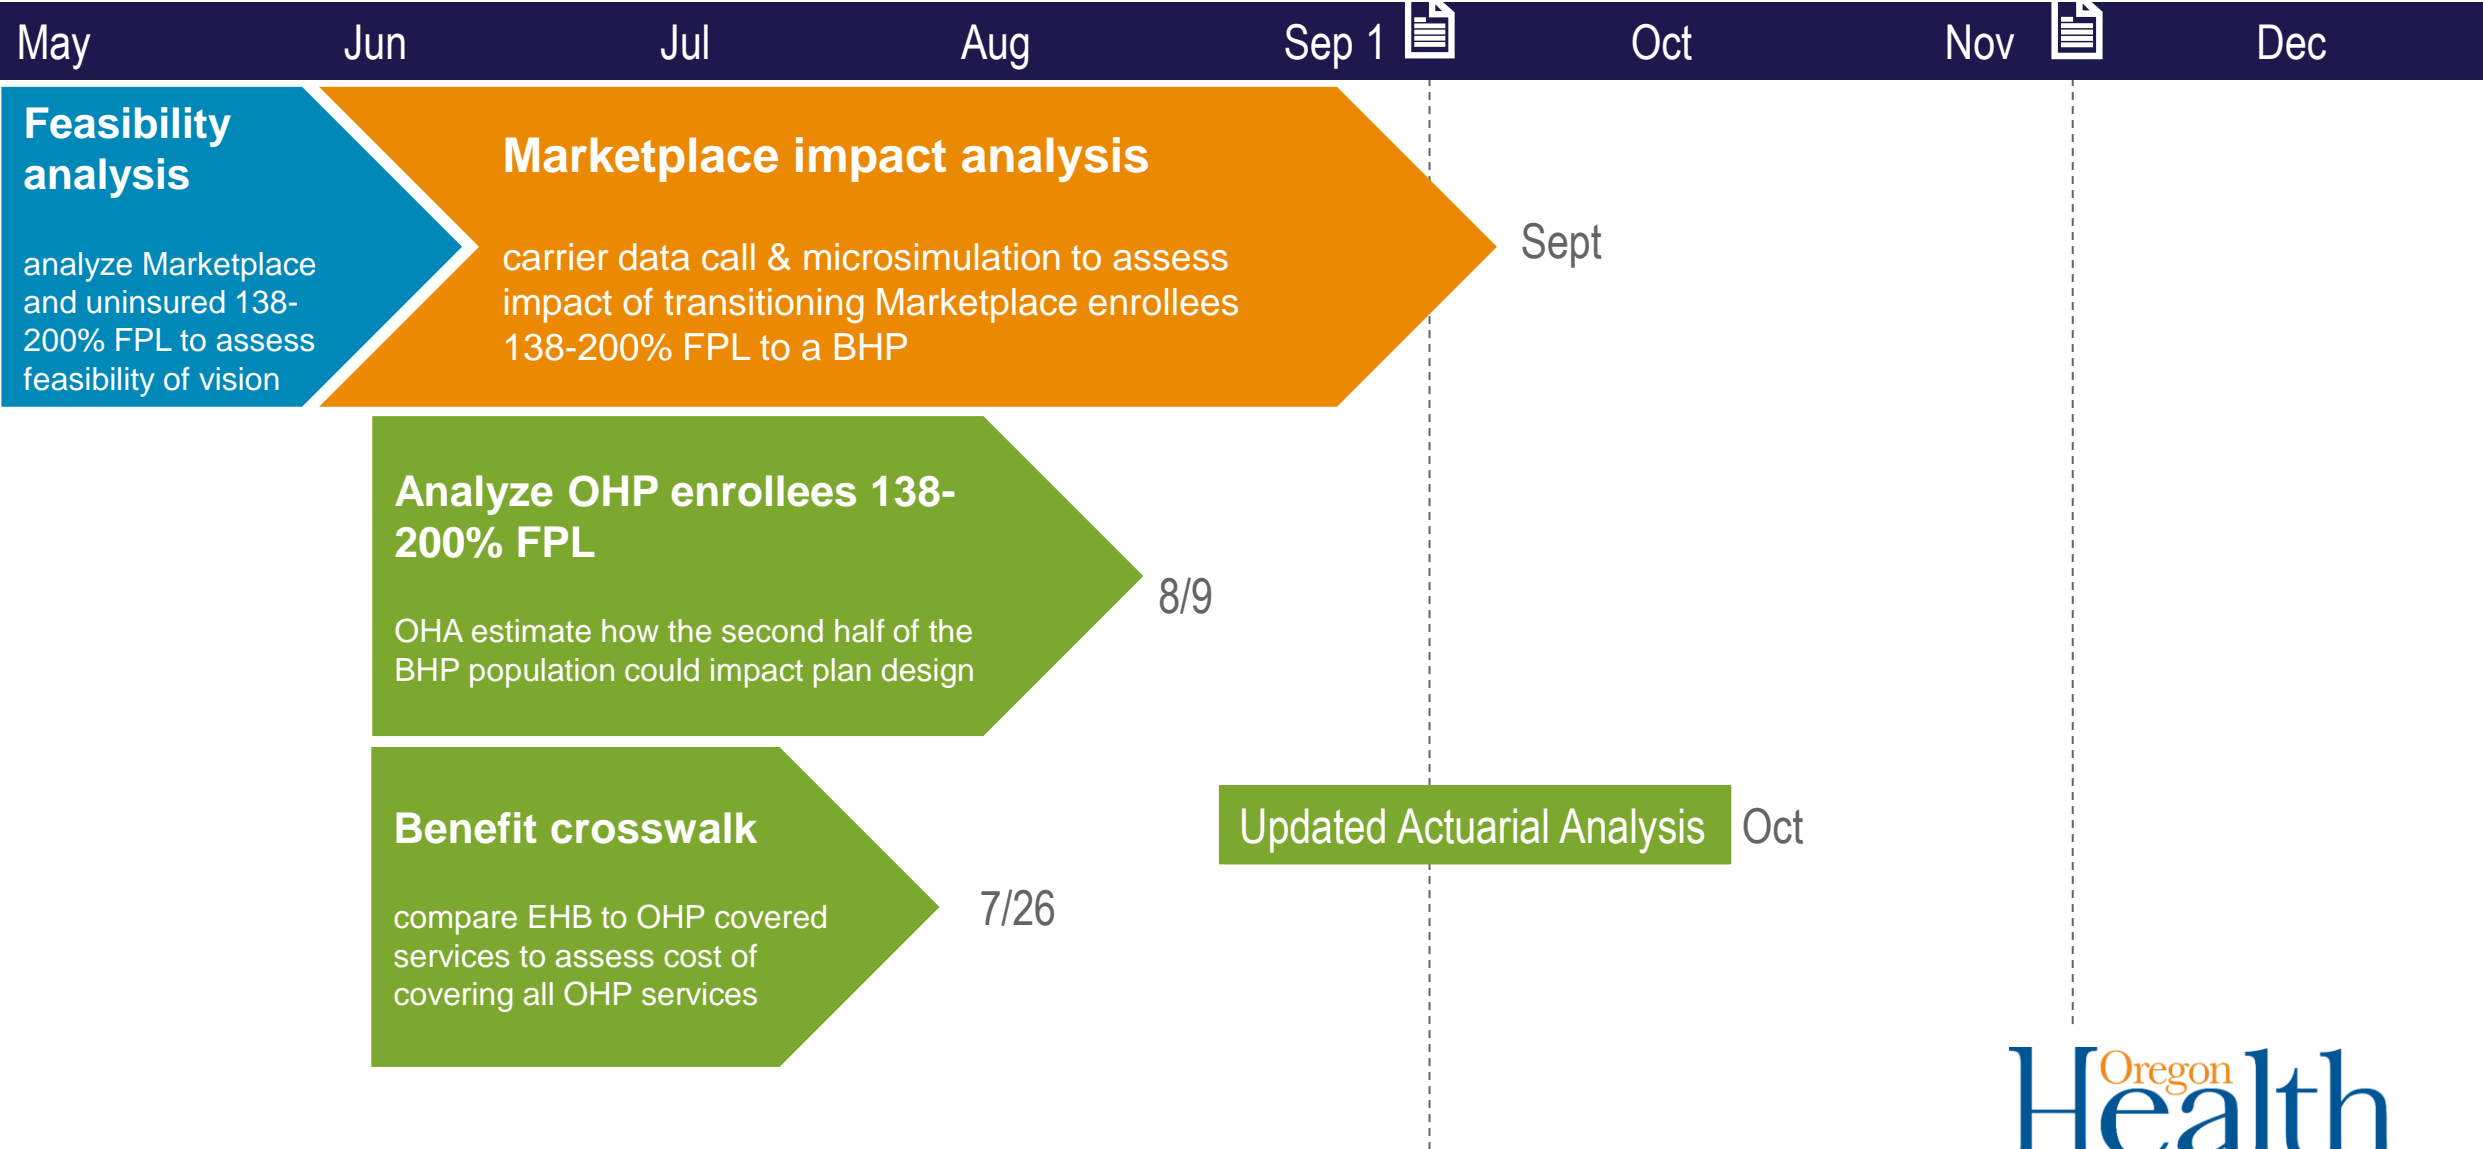

## Will that funding support the Oregon Bridge Program vision?

- Feasibility analysis suggests funding would support a BHP with OHP-like services, no enrollee costs, and payment rates above CCO reimbursement rates

## What additional research is needed to strengthen confidence?

- Comparison of OHP covered services to Essential Health Benefit covered services
- Analysis of OHP population that will become eligible for the BHP
- Carrier data call & microsimulation to assess consumer behavior
