

Rebuild Task Force Ideas

- Require the use of State Registered Apprenticeship programs for all contractors on Rebuild projects (15% -20%?) This will give workers opportunities at good family wage careers & help the skilled trades worker shortage.
- Require Community Benefit Agreements on all Rebuild projects to ensure workers a fair wage & benefits. (Prevailing wage, pension, full family employer paid medical)
- Rebuild projects covering remodels of existing buildings
- Any & all incentives/ subsidies for customers or developers be available throughout the entire state
- Make Rebuild standards match ASHRAE 90.1 standards
- Look into the Hybrid heating systems, this provides a redundant energy options & uses the best option for the conditions
- Promote Clean Hydrogen projects to mix w/ natural Gas
