

REBuild OSAEW Concepts

Mandate a single project labor agreement with Oregon Building and Construction Trades for utilization on all Rebuild projects

Focus REBuild projects on retrofits of existing building stock where need for improvement is greatest.

Require Oregon prevailing wage rates on all Rebuild projects

Require 15% apprenticeship utilization on all Rebuild projects

Fully fund BCD for compliance and enforcement on all Rebuild projects

Public service announcement program to 'turn it off'. The only better option to greening of our electricity needs is to not use the electrons in the first place.

Ensure subsidies of rebuild projects are available to all Oregonians.

Tie rebuild standards to the current national ASHRAE 90.1 standards

Keep HECC out of construction apprenticeship programs

Prioritize efficiencies upgrades and clean air systems in Oregon schools. Further prioritize schools that serve diverse or disadvantaged communities

Advance apprenticeship opportunities for underserved communities by increasing demand for skilled workers to implement Rebuild projects.
