

Dear Task Force on Universal Healthcare

What the heck is this creeping socialism !!! Why are we just now hearing about it and what are you going to stop it ???

News flash, "the rich" are the ones providing jobs and health insurance and doing a better job than the State politicians could ever do. Your job is to keep the political grifters out of our lives.

We have a "right to pursue happiness" and the continued stealing of the fruits of our labor (money) is not making anybody happy or healthy.

All the State has done to date is squander millions, if not billions, of dollars taken from hard working Oregonians. It's time for the politicians to live within their means . . . we have to and so should you !!!

Not to mention, it most likely unconstitutional . . . as it's not the State's responsibility to determine my healthcare !!!

Nor is it right to force taxpayers to pay for healthcare for "non-citizens, homeless, and people moving into the state."

Stop treading on hard working Oregonians and Stop spending my grandchildren's inheritance !!!

.....

THEY'RE QUIETLY HOLDING TAX INCREASE HEARINGS (NO ONE KNOWS ABOUT)

Wednesday August 31, 2022

By Taxpayers Association of Oregon Foundation,

In 2019, Oregon lawmakers voted to create the Oregon Task Force on Universal Health Care (SB 770) to draft up a plan for free health care for all Oregonians. The State government would replace all private insurers and abolish all company policies. Universal health care promises free health care, at no cost, to anyone — including non-citizens, homeless, and people moving into the state. To pay for it, the task force has proposed a new Oregon income tax with the highest rate at 15%.
