

I am 110% against universal health care in Oregon. This includes yet another tax increase scheme by Kate Brown to continue to force Oregonians into poverty while she drives her socialist agenda. We are already one of the most highly taxed states in the country. I work hard for every dollar I make and I do not think it is my responsibility to pay for healthcare for illegals to this country or anyone else.

People are leaving this state due to policies such as this, who is going to be left for Kate Brown to tax into poverty?:
