

To whoever is secretly trying to turn Oregon into a communist state,

I was just informed that you have been holding secret meetings to demolish our private insurance. What gives you the right to turn Oregon into a huge homeless camp?

We are a republic and we, the citizens of Oregon , will not give up our private insurance that we all work hard for at jobs that we all have to do to support ourselves and our families.

We are a state that is overtaxed, no one in this state can afford anymore tax burden. If you want that kind of Universal health care, then you should move to a communist country and try it out.

Keep your greedy fingers out of our pockets, just move somewhere else.

Sincerely

Theresa Stevenson
