Oregon Regional Broadband Action Teams (BATs)

(PRELIMINARY)

Broadband Action Team (BAT)	Counties served:
Central Oregon Intergovernmental Council - Deschutes County BAT	Deschutes
Columbia Pacific Economic Development District BAT	Clatsop, Columbia, Tillamook, Washington (western part)
Jefferson County BAT	Jefferson
Mid-Coast BAT	Benton, Lane, Lincoln, Linn
Mid-Columbia Economic Development District BAT	OR: Hood River, Sherman, Wasco WA: Klickitat, Skamania
Morrow County BAT	Morrow
Multnomah County Community Connectivity Regional Partners / Portland Digital Inclusion Network BAT	Multnomah
Northeast Oregon Economic Development District BAT	Baker, Union, Wallowa
South Central Oregon Economic Development District BAT	Klamath, Lake
Southern Oregon Regional Economic Development, Inc. BAT	Jackson, Josephine

Faster Internet Oregon

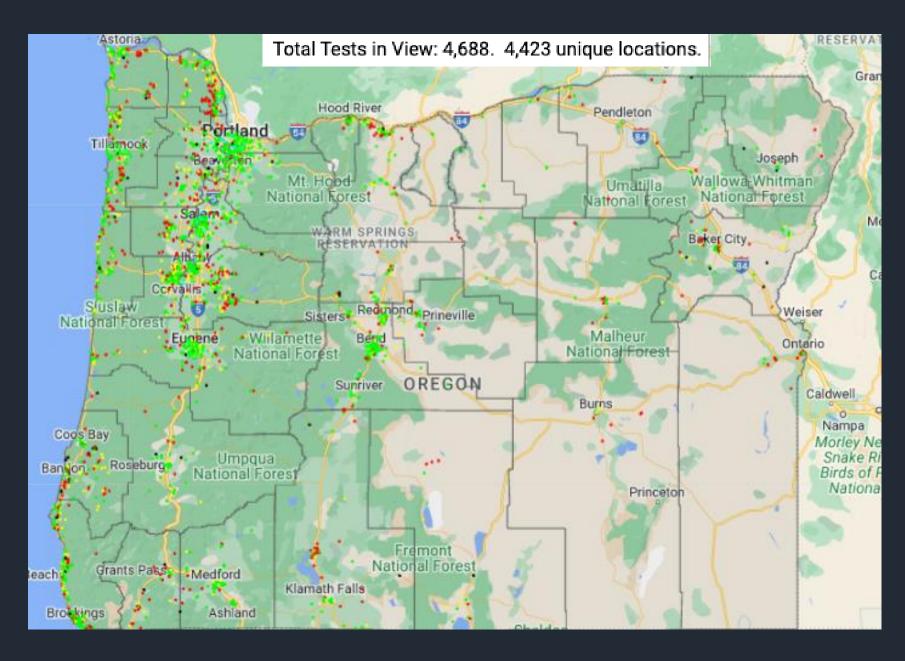

Faster Internet Oregon is a coalition of organizations across the state, led by Link Oregon, including economic development districts, education service districts, Onward Eugene, SpeedUp America, MLab, and Broadband Action Teams.

FIO helps Oregon communities to:

- a) Gather neutral, crowdsourced data and software analysis to design budgetary infrastructure plans to address persistent gaps in broadband availability and affordability, and
- b) Develop comprehensive, competitive proposals to secure funding for those plans, particularly for historically un- and underserved communities.

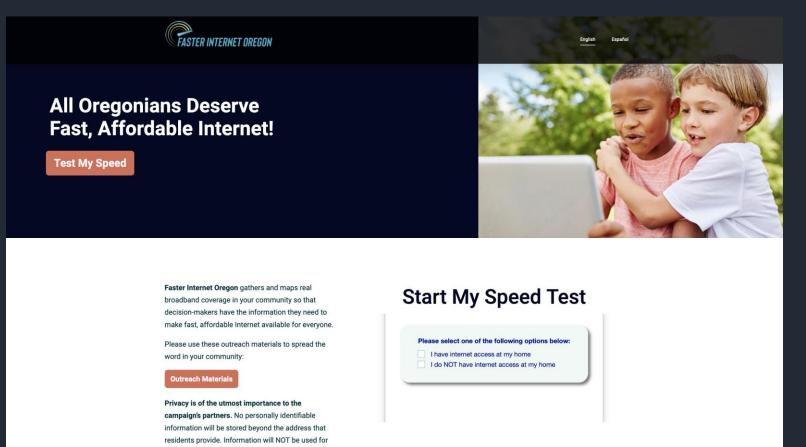

FIO leverages successful models using the same GEO Map[™] software already deployed in four nearby Western states – Washington, Nevada, Idaho, and Utah – as well as at least 15 other states nationally.

Goal: 100,000 Participating Households Statewide

How It Works

• Front end: Oregon residents take a home Internet speed test or report if they do not have Internet access. <u>Results are mapped</u>.

commercial purposes. Only campaign partners and decision-makers who sign a data-use agreement will have access to the household-level data. ORFG

What Can You Do?

- Take the FIO speed test. Promote FIO through your networks: schools, newsletters, public announcements, etc.
- Connect with the Broadband Action Team operating in your region. If your region is not covered by a BAT and you would like to assess whether a BAT could help your community, reach out to your economic development district.
