Capturing the Story of Summer Programs

In partnership with Region 16 Comprehensive Center and Oregon Association of Education Service Districts, OregonASK will provide reporting support for the Oregon Community Summer Grant Initiative

Our work is designed around the following research questions:

- What was the impact of the summer learning initiative?
 - What did the funding make possible?
 - What was the impact/lived experiences of program directors, staff, and youth?
 - How were the priority populations served with this funding?
- What were the successes, challenges, and lessons learned from this initiative?

Capturing Feedback

Feedback will be captured from both programs and youth in live virtual focus groups as well as written feedback

All feedback collected will be shared back anonymously in an aggregate report

Resource Portfolios

Activity plans
Registration forms
Feedback surveys
Family resources
Student work
Schedules

Impact Stories

Photo or video footage
Quotes from the community
Brief explanation of programming

Overall Goals

Demonstrate the reach and impact of the Summer Community Grant Initiative while highlighting the lived experiences of those most impacted

Share results with Oregon Legislature from whom the funds were allocated
