

## **SUBCOMMITTEE RECOMMENDATION**

### **Item 19: Oregon Military Department Corvallis Armory Construction Projects**

---

To:	Emergency Board Full Committee
From:	General Government Subcommittee
Carrier:	Senator Wagner

---

The General Government Subcommittee recommends that the Emergency Board establish a Federal Funds Capital Construction expenditure limitation of \$3,500,000 for the Oregon Military Department for the Corvallis Armory Service Life Extension project and establish a Federal Funds Capital Construction expenditure limitation of \$900,000 for the Oregon Military Department for Corvallis Armory Parking Lot improvements.

The Department has received additional funding from the National Guard Bureau to complete two projects at the Corvallis Armory. The first project is part of the Armory Service Life Extension Project for which \$4.3 million in bond funding was provided in the 2021 legislative session. The additional federal funding will bring the total funds available for this project to \$7.8 million.

The second project is for enhancements to the Corvallis Armory's parking lot. This project requires a 25% match of state funds, which the Department can meet by utilizing \$300,000 of General Fund from the Operations budget that was originally part of \$6.7 million in deferred maintenance funding provided in the Department's 2021 budget bill.

The Subcommittee recommends approval.
