

Public comment by Carla Ness

Oregon Senate Committee on Education,

When will the public school be open? My child is in 2nd grade and he deeply misses teachers and classmates. What is this doing to our children's mental health? When will schools be open so that my child can be excited to learn and be fully engaged in his education. There was so much concern about screen time being harmful to children prior to Covid-19, but the screen time because of school is over the limit of what my 7 year old can handle.

Concerned,
Carla Ness
