## 2014: Federal Workforce Innovation and Opportunity Act (WIOA)

WIOA = most sweeping change to the Nation's workforce <u>development efforts in nearly 20 years.</u>

Reinforced the value of <u>local decision making</u> and charged local governments through local Workforce Development Boards to expand and coordinate local, State and Federal workforce development resources and programs through an *integrated workforce development system*.

"Wraparound"

In Oregon during the 2014 session, SB 1566 created an Oregon system to comply with this new federal law, and also ensure that Oregon's system was better prepared to deal with ongoing workforce training issues, as well as better respond to the next economic downturn and dislocation (which we are now in).

The bill passed unanimously in the Oregon Senate and House of Representatives.

Oregon's Nine Local Workforce <u>Development Boards:</u>

Designated by the Governor and local Elected Officials to coordinate an array of Federal and State workforce development resources and programs.
