

My name is Penny Krebs, I live in Gilliam County.

I am opposed to redistricting in Congressional District #2. I feel like we are for the most part very rural and we need to be represented that way. If there were boundary changes we could possibly be put in with larger cities and we would again lose our voice as people that live in a rural area. We have different problems and challenges than most urban dwellers. In the state of Oregon there is a huge divide both population wise and geographically. The only voice we have right now is with our congressman, who understands our challenges here on the east side of Oregon.

I have grave concerns about who and how this process would be done. I think we should leave it like it is.

Thank you.
