

This email is input for the Hearing on District 1 Redistricting on March 20:

My wife and I live in Oregon Senate District 12 and House District 24

My wife and I live in the tiny section of the City of Hillsboro that is completely disconnected from the rest of Hillsboro representation in the Oregon House and Senate. Our tiny section of the south edge of Hillsboro is somehow combined with McMinnville, Newburg and all the rural areas to the south in House District 24. There is no use talking to our representatives because this tiny portion of Hillsboro comes nowhere near representing the majority of their constituents. The same is even more true in our Senate District 12. There are many issues that are critical for the large city of Hillsboro and we are not represented for those or any similar issues in the Oregon legislature.

We would like to be represented with the rest of the Hillsboro based House Representatives and Senators. Please revise the districting so we are no longer feel improperly isolated from the rest of the city in which we live. Please have us change our districting so we are part of Hillsboro where we belong.

Thank you.
