

Dear Committee,

As a home owner and longtime resident in Saint Helens, Oregon I ask that you protect our rural community. We are not a metro area and we need those who lead us to understand our needs and desires.

We live by a rural way of life and bringing more of a city style of life to rural community would be devastating for us.

I ask that you please consider my desire to keep this community as it always has been, a place outside of urban development.

Thank you,
Theresa Holt
